

Product Guide

VoiceClock

VoiceClock™ is a telephone-enabled collection device that provides timekeeping punch collection through the convenience of a phone line.

Ideal for employers desiring a combination of exceptional ease of use, flexibility and affordability. Can be set up and conveniently placed on site in minutes.

Features

- Magnetic stripe card slot
- Wall mount
- PrintReader biometric compatible
- Reprogram existing 3rd-party clocks
- WebClock optional
- PIN over the phone
- Analog connection

Solution

Whether your employees work remotely, are located temporarily off-site, or simply do not have access to a traditional time clock, VoiceClock enables employees to punch in and out remotely over the phone.

Available in 3,
6 or 12 Lines

The 330/380 connects to the Internet through an Analog (standard phone/fax) line for data transmission.
