

Product Guide

WebClock

WebClock offers the ease of clocking in and out through a standard web browser. With no software to install and no hardware to maintain, tracking your employees' punches in real-time has never been more simple.

WebClock also enables employees to check their time card and/or schedule over the web. Supervisors benefit from the convenience of online access for editing employee time cards from any web-enabled workstation.

Features

- Clock IN/OUT anywhere
- Mobile friendly
- No hardware to setup/install
- Enter shift-related information
- Job codes, mileage
- Clock prompts
- Collect tip entry

Solution

WebClock is ideal for organizations desiring employees to clock in through a web-browser from their workstation or a designated computer within the building. A typical environment for WebClock is an office setting or workspace where employees have access to a computer with Internet access.

On-the-Go

Employees are able to clock in and out through any standard web browser to record punch times from any authorized computer or mobile device.
