

# Introducing SwipeClock's Workforce Management Clock

## Reducing labor costs one punch at a time

- ✓ **PunchLogic™** prevents punch errors.
  - Eliminates duplicate punches and drastically reduces admin edits
  - Improves accuracy of audit-able timekeeping data for compliance
- ✓ **Break tracking** gives employees dedicated break buttons
  - Removes employee confusion when punching at the clock
  - Allows breaks to be paid based upon hours worked
- ✓ **New Punch Types** enable quick identification of work and rest periods
  - Increase usability with dedicated break, meal and transfer buttons
  - Improve tracking of departments, job codes, etc.
- ✓ **Configurable Settings** fit employer's needs
  - Create a customized clock experience

Workforce Management Clock—improving the way employers track employee hours while reducing labor costs, one punch at a time. Available via modern web browsers on most devices.
